### Range Options

Manrose Heated Towel Rails quickly warm and dry towels. Their presence on the wall also adds to the overall style, temperature and comfort of the room.

This comprehensive range of chrome towel rails offers sizes from 400 x 700mm to 500 x 1500mm available in four heat outputs of 150, 250 and 400W matched to the size of the rail.

### Advantages of Towel Rails

Adequately heating your bathroom using a Manrose towel rail not only leaves your towels warm and dry, but helps regulate temperature to the rest of the room decreasing the chances of mould and condensation.

### Style and Comfort

With the Manrose range of towel rails you will find a towel rail to suite all applications and sizes. Every towel rail uses thermally regulated heating elements and a mixture of high inertia fluid in order to maintain even heat distribution around the entire rail.
