

IP66 20A DP Switch with Neon

Description

WeatherPro has been designed to withstand the toughest outdoor and demanding environments, combining reliability and long-lasting performance with a sleek black finish. Rated IP66 and manufactured from impact-resistant polycarbonate ensures the product endures harsh conditions, making it an ideal solution for gardens, patios, and workshops.

This double pole switch is 20A rated with a neon indicator as a status indicator or a locating light, and has captive and backed out terminals with large cable lead-ins and clear markings. The large switch allows easy operation.

Installation is quick and effortless. Fast-fix captive screws allow the detachable back box to be removed with ease, while mounting points are separated from the main wiring space minimising the need for weatherproof sealant to reinstate IP66 rating.

Features

- IP66 rated protects against dust and powerful water jets, ideal for tough indoor and outdoor environments.
- Captive and backed out terminals with large cable lead-ins and clear markings
- Dual-function neon indicator for use as a status indicator or a locating light.
- Black impact resistant polycarbonate housing
- Fast fix screws allows accessory frame to be quickly installed and removed
- Back box mounting points separated from main wiring space to maintain IP rating
- Multiple drill out cable entry points on all sides and rear of back box
