EASY FIT

ENTRitech

Audio door entry systems

The easy-to-install ENTRitech range has been designed for use within a wide range of applications including residential, commercial & industrial properties.

ENTRitech uses up to date technology and is presented in a sleek, modern series of designs supplied in 17 gauge 1.367mm thick stainless steel.

This modular system is supplied in easy to order kit form with flush kit options available from 1 way to 18 way.

Features

- Simple to install
- Robust stainless steel construction and vandal resistant, modular call station
- 1 to 18 way call points with fl ush or surface mounting options
- Dual output 12v DC Power supply (Timed 1.5A for lock & 1A for system)
- 0 -20 second timed output lock release PSU with fail safe or secure options
- Encapsulated electronics
- Illuminated name plate
- To complete your ENTRitech system the addition of a suitable electric lock gives added security and convenience
- To allow emergency or internal release of the lock a break glass or push button can be added to this system
- Optional access keypad
