Female connector, 267 Series, PUSH WIRE®

This female connector (item number 267-110) simplifies electrical installations. Conductors should only be connected to this female connector if their strip length is 8 mm . Featuring one conductor terminal along with PUSH WIRE®, this product outperforms the competition. Our proven PUSH WIRE® connection offers the fastest method for clamping conductors. It utilizes the conductor's stiffness to overcome the clamping spring's contact force. This female connector is suitable for conductor cross-sections ranging from 0.5 mm² to 1 mm².

The contact surface is tin-coated

- Ready to install, immediately usable
- Compact sizes
