WAGO-I/O-CHECK

https://www.wago.com/759-920

WAGO-I/O-CHECK is an easy-to-use Windows application for operating and displaying a WAGO I/O System 750's node without connecting to a fieldbus system. The software reads the configuration from the node and displays it graphically on the screen. This graphic can be printed together with a configuration list as documentation.
With WAGO-I/O-CHECK, it is possible to display and specify the process data of the I/O modules. The field wiring, including all sensors and actuators, can thus be checked before startup.
For some types of interface, Pt100 and thermocouple modules, application-specific settings can be made, such as the baud rate or sensor types.
The coupler must be connected to a free serial or USB port of the PC using the communication cable supplied in the set with the system to enable communication between WAGO-I/O-CHECK and the node.

System requirements

Supported operating systems	Windows 7 Windows 10
Processor	1 GHz or higher, with 32 bits (x86) or 64 bits (x64)
Memory	Min. 1 GB RAM 2 GB RAM or more (recommended)
Hard disk space	min. 150 MB
Graphics resolution	1024 x 786 (min.), 1280 x 1024 or higher (recommended)

Delivery

Delivery type	Installation file (CD-ROM)
Scope of delivery	CD-ROM with software (without communication cable)

Data Act

Pre-contractual Information	Data-Act-AUT-Dienste-WAGO-IO-CHECK

Commercial data

Product Group	27 (special components I/O)
PU (SPU)	1 pcs
Packaging type	unpacked
Country of origin	DE
GTIN	4066966147919
Customs tariff number	85234920009

Product Classification

ETIM 10.0	EC001435
UNSPSC	43232408
eCl@ss 10.0	27-24-25-90
eCl@ss 9.0	27-24-25-90
ETIM 9.0	EC001435
ECCN	NO US CLASSIFICATION

Environmental Product Compliance

RoHS Compliance Status	Compliant,No Exemption
