

SCANGRIP TRIPOD 2M

For stationary positioning of work lights

With its lightweight and extremely handy design, the SCANGRIP TRIPOD 2M is indispensable for stationary positioning of the work light for illumination in a specific working area.

The tripod is extendable from 0.9 meter up to 2 meters, which gives you complete flexibility to position the light in the requested height. When mounted on the tripod the light can be tilted to provide the optimum beam angle.

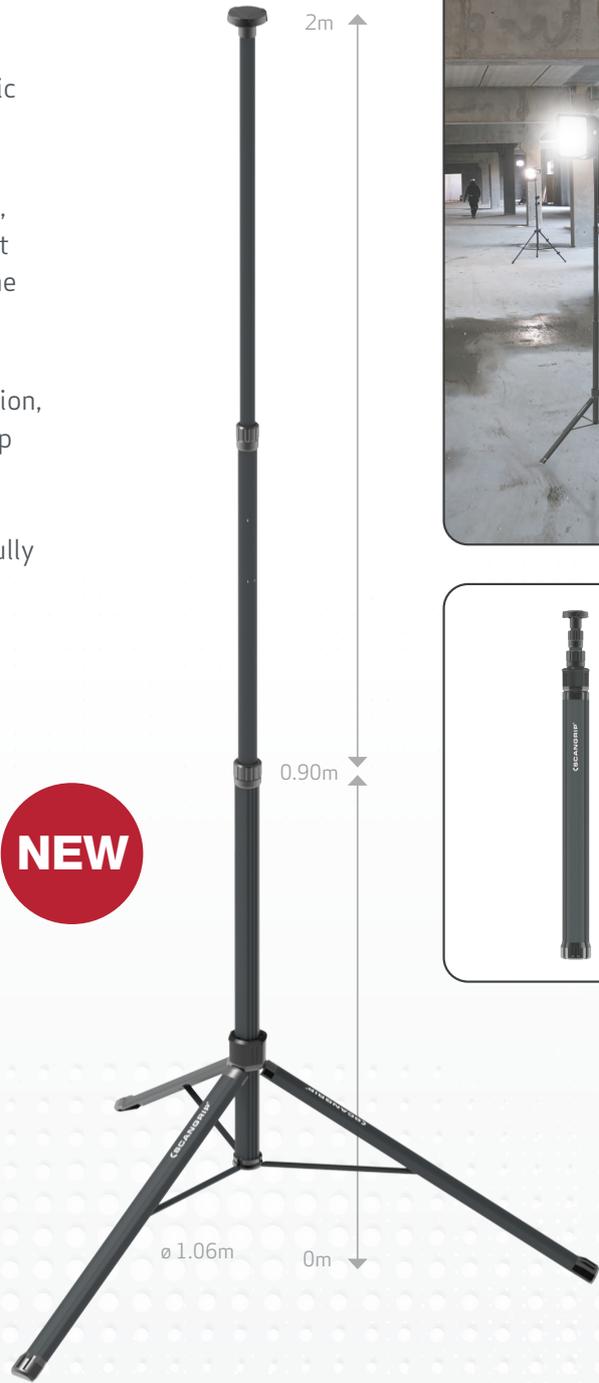

Featuring a compact design and QUICK RELEASE function, it is easy and convenient to carry the tripod and set it up where illumination is needed. The tripod is extremely durable and can be applied for both indoor and outdoor use. The stable construction makes it safe even when fully extended. It is made of black painted aluminium.

DUAL BRACKET not applicable.
