# BLACKSTONE

The new stainless steel van lock is characterized by an innovative design and meets the needs of those who, at the same time, want to protect their van from intrusions and be free to load and unload safely.

## MADE IN STAINLESS STEEL

Innovative design and high resistance stainless steel shell.

## SAFE AND CERTIFIED

Anti-pick, anti-bump and anti-drill cylinder. SKG\*\*\* certified.

## RESISTANT TO ATMOSPHERIC AGENTS

Conceived to resist to water, dust and corrosion at high and low temperatures.

## FAST TO INSTALL

Extremely functional already in the installation phase.

## VERSATILE AND FLEXIBLE

It can be installed both on the rear and on the side door.

## EASY TO USE

The lock is automatically activated when the doors close.

## CHOOSE YOUR FAVOURITE VERSION.

### SLAM

Blackstone is automatically activated when the doors close.

### COMBO

This version allows to disable the automatic activation of the lock to make loading and unloading easier.

## DISCOVER THE NEW SHAPE OF SECURITY
