

Product Catalogue

The Toolflex System is a range of simple, flexible tool organizers that helps users effectively organize, efficiently store and quickly access a wide variety of tools of different sizes, shapes and contours.

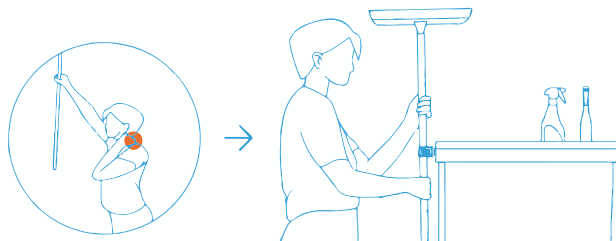

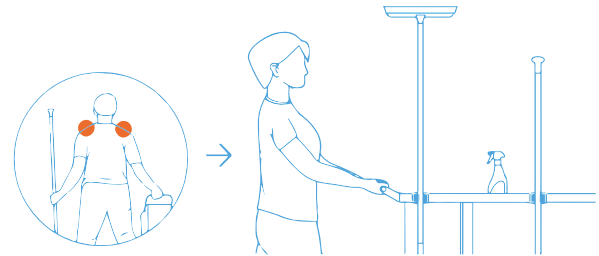

Ergonomic

55% of all cleaning professionals suffer from back or neck pain.*

Storage in motion

No carrying tools between stops – the tools you need are readily available and can be safely transported on the cleaning cart.

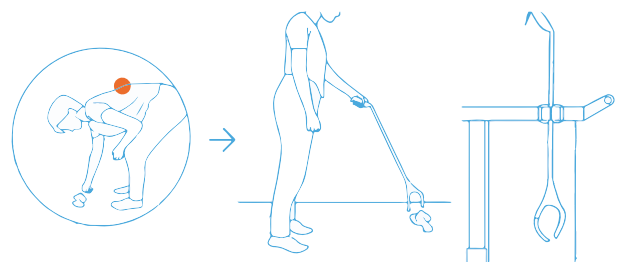

Comfortable / Smooth

Avoid harmful movements above the shoulders – secure tools at the right height and access them with a simple, one-handed motion (push in and pull-out feature).

Toolflex Motion holders rotate 360 degrees allowing users to precisely position tools on the cart.

Always at hand

With the right tools always at hand, users avoid bending and other harmful movements.

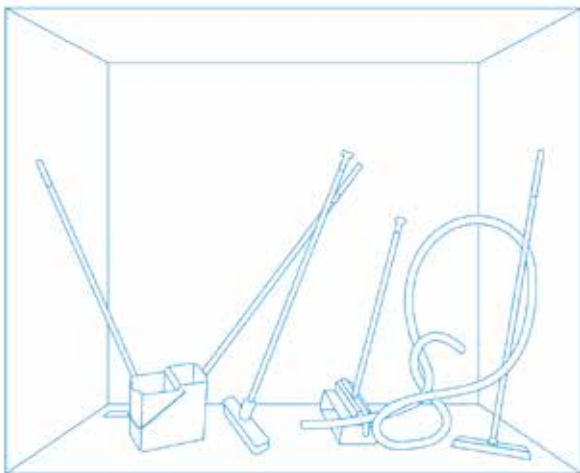

Efficient

If our cleaners spend 10 minutes per day searching for an item, we lose a lot of productive time. *

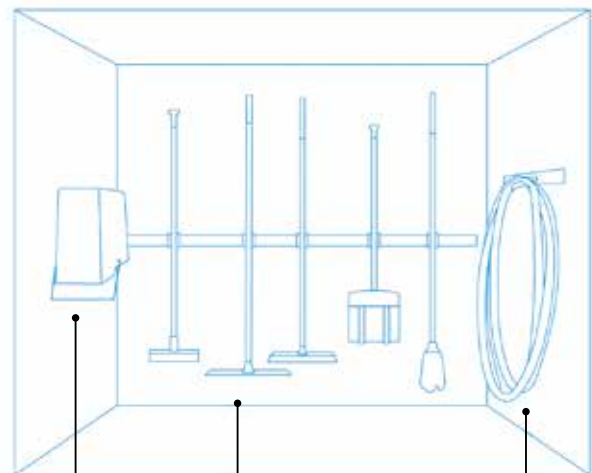

Inefficient

A messy work area is a source for delays, stress and safety hazards.

Efficient

Tools organized with everything in their place creates order from chaos to save time, reduce stress and promote safety.

Bucket Holder,
page 12-15.

Hose Holder,
page 12-15.

Toolflex One,
page 8-9.

* Torbjörn Sporre, NT Service in Värnamo, Sweden, with 50 employed cleaners.

Hygienic

We are required to segregate tools for workspaces, and there is no easier way than using different colours. It is difficult to make mistakes with this concept. *

Hygienic design

Innovative, hygienic design with smooth surfaces with extreme durability and performance.

Toolflex One is our NSF Certified system with one-size-fits-all, Click'n-go holders that can be adjusted, repositioned or removed for cleaning by hand, in dishwasher or autoclave.

Toolflex One, page 8-9.

Colour

- Available in 8 different colours
- HACCP compliant
- FDA approved raw materials
- NSF certified (Toolflex One)

* Daniel Sandgren, owner of Limhamn Fish Smokery and Shop.

Toolflex One Motion

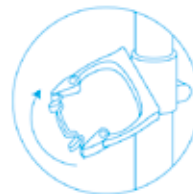

Organisation on the Go

Toolflex One Motion is for professional users requiring tool storage on the move – ideal for the maintenance trolley or cleaning cart. Secure tools, easily and quickly, before moving to the next location. Save time by having the right tools always at hand.

Toolflex has become the standard on cleaning carts and trolleys in the professional cleaning industry.

Toolflex One Motion includes Toolflex One holder, adapter and tube clamp.

Unique tube clamp - 360° rotation.

Unique clamp function. Simple mounting with a standard Phillips screwdriver.

Toolflex One Motion is ideal for trolleys in various applications.

- Office cleaning
- Hotel cleaning
- Window cleaning
- Outdoor cleaning
- Staircase cleaning
- Waste collection

Toolflex One

The ultimate tool holder system

Engineered and designed to the strictest hygienic and performance requirements, Toolflex One is the ultimate, most versatile storage system that helps users effectively organize, efficiently store and quickly access a wide variety of tools of different sizes (Ø15–35 mm), shapes and contours.

Ø 15 mm

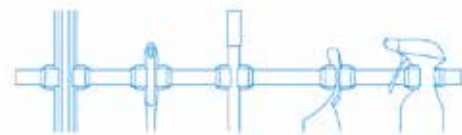

Ø 35 mm

One size fits all tools
(Ø 15–35 mm).

Click 'n-go
function

The unique and patented design assures that both small as well as large objects in different shapes are secured in a firm grip.

Toolflex One is ideal for

- Food and beverage processing
- Restaurant and hotels
- Convenience stores
- Commercial buildings
- Hospitals and elderly care

5-3-X (X = chosen colour)

Example: 5-3-5 (blue)

Hygiene and advantages

No stripes of dirt on the wall, the rail is mounted on distance supports.

The hygienic design of the rail allows for dirt to just fall off or be dried off, no dirt traps.

The hygienic rail is also used with Toolflex One Accessories, for example with holders for disinfection bottles, gloves and face masks, see pages 12-15.
