

INFRARED RADIANT HEATER

Cosy warmth thanks to infrared - the schepbach EPH1200 radiant heater comes with two intensity levels of 600 and 1200 watts. Due to an oscillating rotary movement inside the device, the heat is evenly distributed by 120 or 360 degrees. The 56 cm high heating tower in plain black heats completely silent. A built-in anti-tip feature automatically switches the device off when it accidentally falls over.

- Two heat intensity levels of 600 or 1200 watts
- Extensive heat coverage of 120 or 360 degrees thanks to the oscillation mode
- Easy to operate
- Stable column with a diameter of 22.5 cm and a height of 56 cm
- Completely silent and pleasant orange-red glow
- Transportable with a weight of 2.9 kg and a practical handle
- Built-in anti-tip feature switches the device off
- No risk of burns thanks to the protective grate

Completely silent

Oscillation function:

I: 120°

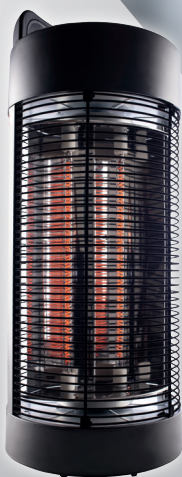

II: 360°

Two heat levels:

I: 600 W

II: 1200 W

including safety
toggle switch
