# EXPLORE OPPLE LED STRIPS

The Perfect Lighting Solution  
for Every Application

At OPPLE, we believe that lighting is more than just illumination—it's an integral part of your environment that enhances both functionality and aesthetics. Our extensive range of LED Strips is designed to offer versatile, high-performance lighting solutions that cater to every requirement, from residential to commercial applications.

Our LED Strips are available in a variety of types and configurations, each crafted to deliver exceptional brightness, energy efficiency, and style. Whether you need an **IP20** strip for indoor use, a robust **IP67** version for outdoor or challenging environments, or advanced options like **Tunable White** and **Chip On Board (COB)** for precise lighting control, our portfolio has you covered.

### Tunable White Technology

Tunable White LED Strips give you the possibility to adjust the colour temperature of white light, in a range going from warm (2700K) to cool (6500K). This flexibility is ideal for creating the perfect ambiance in various spaces, whether you want to relax with warm tones in the evening or boost productivity with cooler light during the day. This technology contributes to enhanced well-being, as different colour temperatures can positively influence mood and productivity in both home and work environments.

### COB LED Strips

Unlike traditional LED Strips that feature individual LEDs spaced apart, COB (Chip-on-Board) technology integrates multiple LED chips closely together on a single board. COB LED Strips produce a continuous line of light with minimal hotspots or shadows, making them ideal for applications where consistent illumination is essential. They can also be cut to length, making them easy to adapt to specific spaces.

## Why Choose OPPLE LED Strips?

#### Versatile Power and Performance

Choose from a range of power options and LED densities to suit your specific needs, from subtle ambient lighting to powerful, high-output solutions.

#### Advanced Control Options

With multiple driver options including on/off, DALI, 1-10V, and PWM, you have the flexibility to control your lighting exactly how you want.

#### Customization and Flexibility

Our wide selection of profiles and color options allows you to create a lighting setup that perfectly matches your design vision.

#### Complete Solutions

From comprehensive connector sets to easy installation features, our LED strips are designed to ensure a seamless and hassle-free experience.

**Explore the possibilities with OPPLE LED strips and discover how our innovative lighting solutions can transform your spaces, enhance your projects, and bring your lighting vision to life.**

**Versatile  
lighting solutions  
designed for  
effortless  
installation!**

# LED Strips without Limits

## Discover Endless Lighting Solutions for every Application

Achieve striking lighting effects in dry, indoor settings with **IP20 LED Strips**. These LED Strips are ideal for areas such as living rooms, offices, or retail spaces. With the IP20 rating, you can achieve a high-quality lighting experience in settings where water resistance isn't a concern. Designed for versatility, these strips offer an elegant, bright solution tailored to enhance any interior ambiance with ease and style.

The **LED Strips IP67** are the perfect solution for outdoors as well as indoors with high moisture level. These strips can handle heavy rain and splashes, ensuring durability and longevity of your lighting installation. For a reliable installation, each Waterproof LED Strip comes with high-quality waterproof tape and a silicone sealing kit, allowing you to perfectly seal your installation against moisture. This added protection ensures your light installation to remain bright and reliable in any application. ▶

### Offices

Upgrade your office environment with our IP20 LED Strips, designed to deliver superior lighting quality. COB technology ensures a seamless, uniform light output, minimizing hotspots and creating a comfortable workspace that enhances productivity. These versatile LED Strips can be installed along desks, shelves, or in conference rooms, providing excellent task lighting while maintaining an inviting atmosphere.

### Residential

Elevate the look of your residential spaces effortlessly with LED Strips. These versatile lighting solutions can be installed in various areas, including around or alongside architectural features, allowing you to create a modern look to any room.

### Hospitality

LED Strips are a game-changer in the hospitality industry, offering not only aesthetic appeal but also practical benefits for cleaning. Perfect for hallways, lobbies, waiting rooms, restaurants and more, LED Strips provide bright, uniform lighting that enhances visibility.

Moreover, LED Strips are easy to maintain, minimizing dust and grime buildup. This simplifies cleaning processes, ensuring that hospitality spaces remain inviting and hygienic.

## Stairs

Proper lighting on outdoor stairs is crucial for safety. Well-lit stairs help prevent slips and falls, especially in low-light conditions, while also enhancing the beauty of your outdoor space. Our high-quality IP67 LED Strips, featuring 120 LEDs per meter, provide bright, consistent illumination. The 3M® Waterproof tape guarantees a secure and reliable installation.

## Gardens

LED Strips will elevate any garden's ambiance, perfect for creating stunning outdoor lighting. Our Strips are compatible with multiple driver options including on/off, DALI, 1-10V, and PWM, allowing you to easily adjust brightness to suit any occasion—from vibrant gatherings to cosy evenings under the stars.

## Bathrooms

Transform any bathroom with our IP67 LED Strips, featuring Tunable White technology. This advanced feature allows you to adjust the colour temperature (2700K-6500K) enabling you to create any mood—whether it's a warm, relaxing ambiance for a soothing bath or a bright, crisp light for your morning routine. With their sleek design and versatility, these LED strips can be installed under cabinets, alongside mirrors, or in alcoves, providing both functional and decorative lighting.

## ...and much more!

OPPLE LED Strips are versatile lighting solutions designed for effortless installation, allowing you to transform any space in no time. Say goodbye to complicated setups and hello to a world of creative lighting possibilities.

**Simply peel, stick, and light on!**

**Your Creativity is the Limit!**

# How to configure our OPPLE Led Strip system

The user-friendly LED Strip Configurator simplifies planning any lighting project with ease. In just four steps, you can use this online tool to specify your lighting needs, choose the mounting type, select accessories, and set the operation mode.

## Introducing the LED Strip Configurator

Simplify your lighting projects with our new LED Strip Configurator! This easy-to-use tool helps you calculate exactly what you need—strips, profiles, and drivers—all tailored to your project. Save time, eliminate guesswork, and achieve perfect results every time.

Start planning smarter today with the LED Strip Configurator!

# Tips for Professional Installation

Unlock the potential of tailored lighting solutions with OPPL LED Strips! Our expertly curated insights on design, operation, and installation will empower you to deliver flawless results with ease. Save time, stay on budget, and impress clients with a professional finish every time.

## Briefly Information

- Effortless Installation: OPPL LED Strips achieve tool-free setup, and quick installation.
- Flexible Application Range: Suitable for both commercial and residential spaces, from accent lighting to ambient and task lighting, thanks to their flexibility and design versatility.
- Professional Finish: With high-quality color rendering and uniform illumination, OPPL LED Strips create a professional, polished look in any setting, impressing clients and enhancing space aesthetics.
- Compatible with Smart Systems: OPPL LED strips can be integrated with smart systems or dimmers, allowing for remote or automated control, enhancing convenience and user experience.

## General Instruction for Use

- The LED Strip cannot be sharply bent once in places where no electronic components are mounted. The minimum bending radius is 20 mm.

- Ensure that no mechanical loads are applied to the electronic components on the LED strip.
- Ensure that the LED strip is adequately protected in areas containing dust or water.
- Never fold LED Strip in the transverse direction. This damages the solder paths and solder contacts.

- Max length of LED Strip connect to a power supply cannot exceed 5 meters.
- The total output of Oppl LED Strip must not exceed the maximum output of the driver. Recommend having additional 20% of safe margin from power supply.

## LED Strip - IP20

- Complete LED Strip portfolio
- LED Strip power range from 4.8 W/m to 19.2 W/m, with minimum 120 Leds per meter
- Multiple driver options available including on/off, DALI, 1-10V, PWM
- Wide profile portfolio with different color options
- Complete set of strip connectors for IP20 strip

Choose the ideal profile to match your strip output for optimal performance

Profile	IP20						IP67			
	4.8W	9.6W	14.4W	19.2W	12W COB	12W TW	4.8W IP67	9.6W IP67	14.4W IP67	12W TW IP67
Profile-SF-10x10 (AL/BL)	x	x					x	x		
Profile-SF-15x15 (AL/BL)	x	x	x	x	x	x	x	x	x	x
Profile-SF-17x7 (AL/BL)	x	x	x	x	x	x	x	x	x	x
Profile-RC-10x10	x	x					x	x		
Profile-RC-15x15	x	x	x	x	x	x	x	x	x	x
Profile-Corner-18x18	x	x	x	x	x	x	x	x	x	x

## Match table of IP20 connector and profile

	Connector Strip to Strip	L-Connector Strip to Strip	Wire-Connector Strip to Strip	Wire-Connector Strip to Wire
Profile-SF-10x10 (AL/BL)				
Profile-SF-15x15 (AL/BL)	x	x	x	x
Profile-SF-17x7 (AL/BL)	x	x	x	x
Profile-RC-10x10				
Profile-RC-15x15	x	x	x	x
Profile-Corner-18x18	x	x	x	x

The size of connectors fit into the profiles.

## Drivers

OPPLE LED Strip portfolio provides consistent 24V DC drivers for optimal LED performance in different applications. Multiple options of dimmability help customers to fulfill various lighting requirements.

Go to [opple.com](https://www.opple.com) for extra information and the full range of LED drivers for LED Strips.

# Drivers

## IP20 On/Off

820009007900 LEDDriver 24V-36W	820009008000 LEDDriver 24V-60W	820009008100 LEDDriver 24V-120W	820009008200 LEDDriver 24V-160W	820009008300 LEDDriver 24V-240W
-----------------------------------	-----------------------------------	------------------------------------	------------------------------------	------------------------------------

IP20 Driver	A	B	C
36W	172	45	32
40W	185	42,5	28,5
60W	202	45	32
75W	295	40	32
120W	260	45	32
150W	295	40	31
160W	260	45	32
240W	310	50	32

## IP20 DALI/10V/PWM

820002006100 LEDDriver 24V-40W- DALI/10V/PWM	820002006200 LEDDriver 24V-75W- DALI/10V/PWM	820002006300 LEDDriver 24V-150W- DALI/10V/PWM	820002006400 LEDDriver 24V-240W- DALI/10V/PWM
--	--	---	---

IP20 Driver	A	B	C
40W	185	42,5	28,5
75W	295	40	32
150W	295	40	32
240W	360	40	32

## IP20 BLE-TW

826001000300 LEDDriver 24V-80W-BLE2- TW	820004013700 LEDDriver 24V-200W- BLE2-TW
---	--

IP20 Driver	A	B	C
80W	230	45	25
200W	311	48	26

## IP67 DALI

820002006500  
LEDDriver 24V-75W-  
DALI-IP67

820002006600  
LEDDriver 24V-150W-  
DALI-IP67

820002006700  
LEDDriver 24V-240W-

LEDDriver 24V-75W-  
10V/PWM-IP67

820003004000  
LEDDriver 24V-150W-  
10V/PWM-IP67

820003004100  
LEDDriver 24V-240W-  
10V/PWM-IP67

IP67 Driver	A	B	C
75W	290	61	25
150W	290	61	25
240W	270	68	30

## Compatibility of Strip and Drivers

Driver Type	IP20 Strip						IP67 Strip			
	4.8W	9.6W	14.4W	19.2W	12W COB	12W TW	4.8W IP67	9.6W IP67	14.4W IP67	12W TW IP67
36W On/Off	x						(x)			
60W On/Off	x	x					(x)	(x)		
120W On/Off	x	x	x	x	x		(x)	(x)	(x)	
160W On/Off	x	x	x	x	x		(x)	(x)	(x)	
240W On/Off	x	x	x	x	x		(x)	(x)	(x)	
80W TW						x				(x)
200W TW						x				(x)
40W DA/10/PWM	x						(x)			
75W DA/10/PWM	x	x			x		(x)	(x)		
150W DA/10/PWM	x	x	x	x	x		(x)	(x)	(x)	
240W DA/10/PWM	x	x	x	x	x		(x)	(x)	(x)	
75W DALI IP67	x	x	x	x	x		x	x	x	
150W DALI IP67	x	x	x	x	x		x	x	x	
240W DALI IP67	x	x	x	x	x		x	x	x	
75W 10V/PWM IP67	x	x	x	x	x		x	x	x	
150W 10V/PWM IP67	x	x	x	x	x		x	x	x	
240W 10V/PWM IP67	x	x	x	x	x		x	x	x	

(x): Only if driver is mounting indoor. Opple recommend strong watertight protection to use the IP20 driver for IP67 LED Strip.

### Tips for connecting a power supply to a LED Strip

1. Opple recommends choosing a power supply with 20% safe margin of the total power needed for LED Strip.  
For example, LED Strip of 10m with a power of 9.6 W/m ( $10 \times 9.6 = 96W$ ), the minimum power supply is 120W.
2. The maximum length of LED Strip to the driver is 5 meters, to avoid the voltage drops.
3. Opple strongly recommend to use Parallel Connection.

# The Max. Length of wire in connection between LED Strip and Power Supply

The maximum length of an OPPL LED Strip varies based on the specific application and is significantly influenced by the supply line between the driver and the strip. The length and cross-section of this supply line can result in a voltage drop, which, beyond a certain point, negatively impacts the performance of the LED Strips. The guide values in the tables below offer recommendations for optimal performance.

## Calculation of the MAX permitted cable length from Power Supply

		DIAMETER OF WIRE						
		0.5mm <sup>2</sup>	0.75mm <sup>2</sup>	1mm <sup>2</sup>	1.5mm <sup>2</sup>	2.5mm <sup>2</sup>	4mm <sup>2</sup>	6mm <sup>2</sup>
Power Supply	40W	6m	9m	12m	18m	30m	48m	72m
	60W	4m	6m	8m	12m	20m	32m	48m
	75W	3m	4.8m	6.4m	9.6m	16m	25m	38m
	100W	2.4m	3.6m	4.8m	7.2m	12m	19.3m	29m
	120W	2m	3m	4m	6m	10m	16m	24m
	150W	1.6m	2.4m	3.2m	4.8m	8m	12.9m	19.3m
	200W	1.2m	1.8m	2.4m	3.6m	6m	9.6m	14.5m
	240W	1m	1.5m	2m	3m	5m	8m	12m

PS: Calculation based on DC 24V

# Seamless Control with OPPLE LED Strips: Smart Integration for Dynamic Lighting Solutions

OPPLE LED Strips are fully compatible with a range of OPPLE DALI and Smart accessories, offering seamless integration into your lighting setup. Enhance your control and convenience with accessories like the DALI converter, Smart Switch, and the Smart App. These tools allow you to easily manage and adjust your lighting, ensuring optimal performance and flexibility for any environment. With OPPLE's smart solutions, you can create a tailored, dynamic lighting experience.
