

Fanlight

The Fanlight seamlessly blends modern lighting with superior airflow, ensuring both style and comfort in any space. With its ultra-quiet motor, retractable blades, and multi-functional lighting options, it is the perfect solution for both summer cooling and winter warmth.

Key Features

Elegant Design & Dual Functionality

Seamlessly combining a ceiling fan with a stylish luminaire, the Fanlight offers a sophisticated touch to any space while providing both illumination and air circulation.

Ultra-Quiet Performance

Equipped with a high-quality, ultra-quiet motor, the Fanlight ensures a peaceful environment, making it perfect for bedrooms, living rooms, and offices.

Automatically retractable Blades

The fan blades automatically extend when the fan is in use and retract when switched off, keeping the fixture sleek and stylish.

Customizable Lighting

Dimmable and featuring multi-CCT control via remote, allowing you to adjust the ambiance from warm white to daylight as needed.

Optimal Airflow Control

With six adjustable fan speeds, you can tailor the air circulation to your preference, ensuring comfort throughout the year.

Year-Round Comfort

The reversible airflow function allows you to use the Fanlight in all seasons—cooling in the summer and distributing warmth in the winter.
