

LED Insect Killers

Hygiene Range

Powerful Performance

High-voltage 4000V zapper ensures effective killing of flying insects.

Eco-Friendly LED Tech

Long-lasting LED tubes use up to 70% less energy than traditional fluorescent tubes, with a lifespan of up to 20,000 hours.

Robust and Stylish

Fireproof aluminium housing and ABS side panels ensure safety, durability, and modern design.

Simple Maintenance

Large removable collection tray makes cleaning quick and easy.

Features

- Effective attraction of flying insects with dual-wavelength
- Eco-friendly LED tubes with long lifespan
- Durable and safe fire-proof aluminium housing
- Removable collection tray for easy cleaning
- UKCA, CE and RoHS certificated

Why this LED Insect Killer?

Keep your spaces insect-free the smart way — without chemicals, sprays, or hassle. Our advanced LED Insect Killer uses UV-A dual-wavelength LED technology (365+395nm) to attract and eliminate light-sensitive flying insects such as flies, moths, mosquitoes, and gnats efficiently and silently.

Ideal for:

- Hospitality: Hotels, restaurants, and cafés.
- Food Industry: Butcher shops, bakeries, and food processing areas.
- Commercial and Public Spaces: Offices, schools, supermarkets, and hospitals.

Specifications

Materials	Aluminium alloy and ABS fireproof plastic
Power supply	AC220V - 240V/50Hz
Zapper voltage	4000V magnetic (av.3200-3800V)
Lamp type	Dual-wavelength (365+395nm) UV-A LED tubes
Lamp lifespan	20,000 hours of continuous use
Installation options	Wall-mounted, suspended, or freestanding
Compliance	UKCA, CE, RoHS, REACH, EN60335-2-59
Plug Type	UK Plug (Type G)
Cable length	1.5 m
Accessories	Suspension chain, Wall mount screws and anchors

			
Model	IK50	IK80	IK150
Coverage	50m ²	80m ²	150m ²
Power rating	8W	10W	18W
Lamp watts	2x 4W	2x 5W	2x 9W
Weight	1.83kg	2.6kg	3.6kg
Dimensions	L39xW11 xH28cm	L44xW11 xH33cm	L70xW11 xH33cm
Cat. No.	MANLFK50	MANLFK80	MANLFK150
