Multi-Room Extraction Continuous Running Ventilation Unit

Product Datasheet

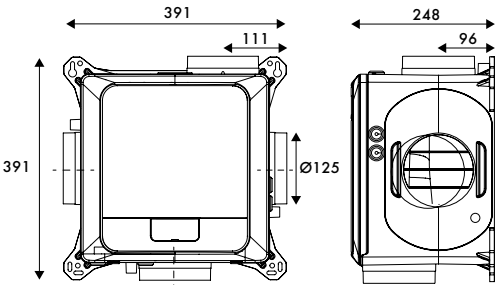

- Suitable for wall, ceiling or loft mounting
- Three 125mm extract points
- Continuous Operation
- Quiet Running
- Multiple room extract

Benefits

The multi-room product is a mechanical extract ventilation unit which has been designed for continuous extract of stale air from separate areas around the home or for commercial applications where a multipoint extractor system is needed, including toilets, changing rooms and cubicles. These multi-room extract units have been developed so they can be installed in many applications and condensate drains are provided where the ambient air has a high humidity content.

Fan Dimensions (mm)

Weight: 4.1kg
